Re: Lead Consultant (Data Protection SME) Position

Dear Hiring Manager,

I am writing to express my strong interest in the **Lead Consultant (Data Protection SME)** position at Computacenter. With over 15 years of experience in enterprise technology solutions, data security, and technical leadership, I am excited about the opportunity to contribute to Computacenter's mission of delivering innovative IT infrastructure solutions that empower clients to achieve their strategic goals.

Why I'm Perfect for This Role

Data Protection & Security Expertise:

- **Enterprise Data Security:** Led comprehensive data protection initiatives across healthcare and enterprise environments, implementing robust security measures for sensitive client data
- **Compliance & Governance:** Extensive experience with data privacy regulations, security frameworks, and compliance requirements in highly regulated industries
- **Technical Security Implementation:** Designed and implemented secure data architectures, encryption protocols, and access control systems for enterprise-scale applications

Technical Leadership & Consulting:

- **Subject Matter Expert (SME):** Served as technical SME for large-scale enterprise integrations, providing expert guidance on data protection and security best practices
- **Cross-Functional Collaboration:** Successfully led technical teams and collaborated with stakeholders across multiple departments to ensure data protection compliance
- **Client-Facing Expertise:** Proven ability to communicate complex technical concepts to both technical and non-technical stakeholders, building trust and confidence

Relevant Experience Highlights

Current Role - AI/ML and Software Lead | Athlete Management Technologies

- **Data Protection & Privacy:** Implemented comprehensive data protection measures for sensitive athlete performance data, ensuring compliance with privacy regulations
- **Secure Data Architecture:** Designed and built secure data pipelines processing real-time sensor data with end-to-end encryption and access controls
- **Cloud Security:** Architected secure cloud solutions using AWS with proper data classification, encryption, and monitoring

Previous Experience - Senior Technical Lead | Antech Diagnostics

- **Healthcare Data Security:** Led data protection initiatives for 1000+ healthcare clients, ensuring HIPAA compliance and data security
- **Enterprise Integration Security:** Served as SME for Oracle-Antrim integration, implementing secure data transfer protocols and access controls
- **Compliance Management:** Developed and maintained data protection policies and procedures for enterprise healthcare systems

What I Bring to Computacenter

Technical Excellence:

- Deep expertise in data protection technologies, security frameworks, and compliance requirements
- Strong background in enterprise IT infrastructure, cloud security, and data governance
- Proven ability to design and implement secure, scalable solutions

Leadership & Consulting:

- 15+ years of technical leadership experience with a focus on data protection and security
- Strong client-facing skills with experience in enterprise consulting and stakeholder management
- Ability to translate complex technical requirements into practical, implementable solutions

Industry Knowledge:

- Extensive experience across healthcare, enterprise, and technology sectors
- Understanding of regulatory requirements and compliance frameworks
- Track record of delivering data protection solutions that meet business objectives

Why Computacenter

I am particularly drawn to Computacenter's commitment to **putting customers first** and **being honest and straightforward** in all interactions. Your focus on **diverse and inclusive** practices and **building a sustainable business** aligns perfectly with my professional values. The opportunity to work with a company that has been a trusted technology partner for over 40 years and serves some of the world's largest organizations is incredibly exciting.

I am particularly interested in contributing to Computacenter's **security solutions** and **consulting services**, where I can leverage my expertise in data protection to help clients navigate complex security challenges and achieve their digital transformation goals.

Next Steps

I would welcome the opportunity to discuss how my experience in data protection, technical leadership, and enterprise consulting can contribute to Computacenter's continued success. I am confident that my combination of technical expertise, leadership experience, and client-focused approach makes me an ideal candidate for this role.

Thank you for considering my application. I look forward to hearing from you soon.

Best regards,

Amin Parva

P.S. I am particularly excited about the opportunity to work with Computacenter's diverse client base across financial services, healthcare, and public sector organizations, where data protection expertise is critical for success.
